Water, Our second Nature

ESS stands for Easy Sanitary Solutions, and is at the same time the best and most appropriate statement describing our products. **Simple, practical** and **advantageous for installation** specialists and end-users, in the very best **quality** with an **attractive** and **modern design**. As a family owned company we have been designing, developing and producing sanitary solutions since 1928.

### Top quality

ESS is committed to excellent products with attention to quality and durability. All our products are developed and manufactured inhouse in our factories in the Netherlands and Germany. This is how ESS guarantees highest quality. All products are subject to extensive testing and evaluation, to ensure a long lasting life in your bathroom.

Square

### Exclusive design

ESS has a passion for design. Therefore, we design all our products ourselves, with love for details.

This way we give all our products the exclusive Dutch design, which we are so proud of. ESS products are renowned worldwide for their exquisite design and have been awarded several international design and innovation awards.

### Innovation power

Innovation is the soul of the company. ESS is constantly changing the world of sanitary with new ideas and solutions that add more comfort and ease of installation to the bathroom. Out-of-the-box thinking and intensive market contact enables ESS to innovate. Thanks to this innovation power customers all over the world know how to find ESS

### We guarantee:

Innovative and trendsetting bathroom solutions

'Made in Germany quality' and Exclusive and internationally acknowledged 'Dutch design'

Over 80 years knowledge & experience in sanitary

# Easy Drain®

## Easy Sanitary Solutions

## The product benefits

### Height adjustable feet

Easy Drain shower drains are supplied with adjustable legs for easy height adjustment and levelling as well as fixing the build-in set during installation. Our Wall models come with a special mount for easy application against the wall.

### Wet area sealing system

Our Wet area Sealing System offers a guaranteed safe watertight system solution, in combination with an Easy Drain with Water Protection System (WPS). This seal kit ensures water tightness including warranty of 10 years!

### Grate removal tool

Easy Drain shower drains are supplied with a Grate Removal Tool to easily remove the grate for cleaning and maintaining your shower drain

### TAF (Tile Adjustable Frame)

The innovative TAF-system is fully adjustable at the time of tiling. TAF saves time and ensures a perfect fit with any thickness of floor material. TAF-system is available in standard (7-18 mm), high version (17-28 mm) and low version (3-13 mm)

# 10 YEAR LIMITED WARRANTY

### Water protection system

The innovative Water Protection System (WPS) provides an easy-to-install and safe-to-assemble sealing system for linear shower- and floor drains. This WPS-system consists of a flexible waterproofing membrane which is connected to the linear drain's stainless steel flanges or the floor drain's special cuff. This way, leaking as a result of faulty installation due to unfavorable conditions is eliminated.

### Secondary drainage

With our patented TAF-system (Tile Adjustable Frame) we offer a unique option to apply secondary drainage in a barrier-free installation. This way, any water leaking under the tiles due to porous sealant or cracks can flow back into the shower drain.

### Complete sets

ESS products are supplied as complete set that only consists of a few parts which enable a quick and easy installation. By using our crystal clear installation- advice and videos, assembling an Easy Drain is only a matter of seconds!

We offer our product data in BIM-format. These BIM files are compatible with architectural CAD software Autodesk Revit and available in ICF format: the open and neutral data format for BIM in the construction industry.

#### Why use BIM?

Working with BIM offers the possibility to simplify the design and implementation (costs) of construction projects. BIM stands for "Building Information Modelling" and makes it possible to visualize the construction process in a single model. All cooperating parties (architect, designer, installer, etc.) have access to these files to ensure an efficient construction process.

#### Advantages

- All parties work with the latest and most relevant data
- Maintain control of complex projects
- Minimization of risks in the construction and thus reduction of costs
- Improved quality of buildings
- Improvement of project communication

# Easy Drain®

## The original

Enjoy showering in complete freedom. The Easy Drain series offers you complete freedom in designing your own bathroom. You decide where and how you want to shower. The modern and timeless design grates will give a unique touch to your shower sensation.

Showering in complete freedom. You create a unique space without barriers. Think free. Shower free. Easy Drain is the original concept, designed by **ESS**. As the inventors of barrier-free showering, we know how to amaze the world time and time again with breakthrough innovations. The patented **TAF** (Tile Adjustable Frame) and **WPS** (Water Protection System) systems have unleashed a revolution in barrier-free showering. **TAF**: a height adjustable grate support frame, which ensures a perfect and smooth levelling of the grate to any tile thickness and offers simultaneously secondary water drainage.

**WPS**: this system guarantees watertightness and thereby security. What is possible due to the pre-assembled sealing membrane. All of our products are tested extensively, which is why you can rely on our quality. Easy Drain is approved to European Standard EN 1253\*, the highest functionality testing standard.

Easy Drain<sup>®</sup>  
Shower Drains

Modulo Design

## Refined taste

Give your bathroom a refined appearance. The Modulo Design Z-2 grates are installed with subtle, widened frames on the short sides. Create your signature with refined design by Easy Drain. Your style in barrier-free showering.

Easy Drain Modulo Design is an integrated solution for modern water drainage. The low overall depth and adjustable drainage siphon ensure that the Easy Drain Modulo meets your requirements in any conceivable bathroom. Due to the innovative technique (TAF), you can enjoy security and comfort.

With the Easy Drain Modulo Design series, a high-quality finish is guaranteed. Easy Drain Modulo Design Z-2 is available in various sizes.

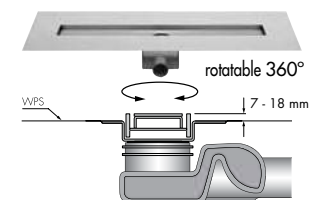

## Configure your shower drain:

Easy Drain<sup>®</sup>  
Shower Drains

Modulo TAF

**10 YEAR WARRANTY**

WPS Technology - pre-assembled sealing membrane

**TILE THICKNESS 7 - 18 MM**

## Elegant stainless steel frame and guaranteed watertight

The patented TAF-system and WPS, have unleashed a revolution in barrier-free showering. The height adjustable grate adapts perfectly to any tile thickness. Our TAF-system has been specially developed to enable secondary drainage while the pre-assembled sealing membrane (WPS) ensures a complete watertight installation.

### Product benefits:

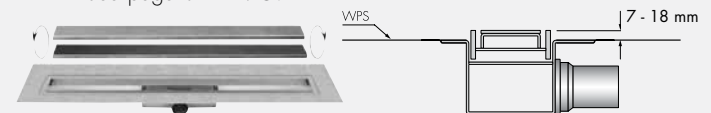

- Easy to clean siphon
- Installation: free in the floor or against the wall
- EN 1253 certified
- ETAG - 022 certified
- Pivoted and adjustable drainage siphon
- Modulo TAF height adjustable frame ( 7 - 18 mm )
- High drainage capacity ( 32 l/min )

### Complete set or configurable:

**COMPLETE SET** incl. grate

See page 3 - 4 MO.

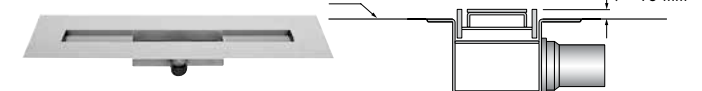

### Configure your shower drain:

Step:

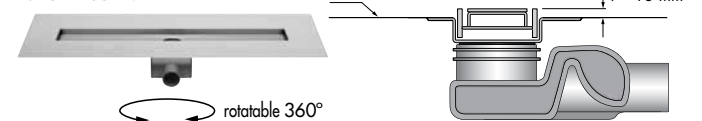

#### 1 CHOOSE YOUR BUILD-IN SET

incl. height adjustable legs, pre-assembled sealing membrane and preferred water seal height.

Compact

The flattest in the world

10 YEAR WARRANTY

WPS Technology - pre-assembled sealing membrane

## The flattest in the world

With the Easy Drain Compact you choose for the lowest shower drain in the world. Manufactured by the inventor of the linear shower drain. The Compact series consists of shower drains with a installation depth starting at 43 mm, and a removable, easy to clean water seal with the maximum drainage capacity. With these specifications, the series is a "Problem Solver" for renovation projects.

### Product benefits:

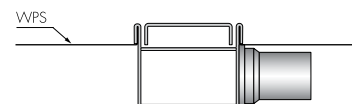

- Easy to clean siphon
- Pre-assembled sealing membrane - WPS Technology
- Installation free in the floor
- EN 1253 certified
- ETAG - 022 certified
- High drainage capacity 32 l/min

Easy Drain Compact is available in a variety of different styles and models, including our patented systems **TAF** (Tile Adjustable Frame) and **WPS** (Water Protection System).

Shower Drains

Vinyl 

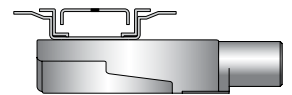

## Vinyl – The solution for vinyl floors

Easy Drain Vinyl is specially designed for use in combination with vinyl flooring. The vinyl can easily be clamped between the drain's grate and build-in set to ensure a complete watertight installation. This way, the frame seamlessly fits into the vinyl floor. The Vinyl linear shower drain is supplied as complete set including: lockable grate, trap body, drainage siphon and height adjustable legs.

**TILE THICKNESS 7-18 MM**

## Multifunctional

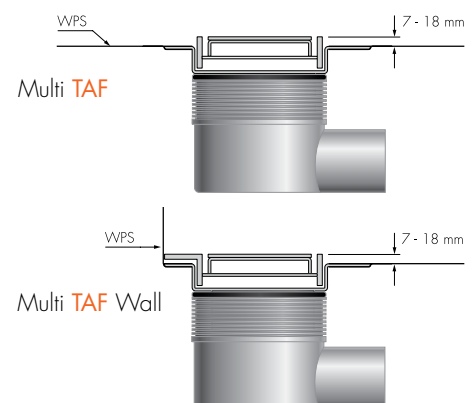

The patented TAF-System and WPS, have unleashed a revolution in barrier-free showering. The pre-assembled sealing membrane and the height adjustable grate adapt perfectly to any tile thickness and guarantee complete drainage of shower water. By which watertightness is guaranteed.

### Product benefits:

- Easy to clean siphon
- Installation free in the floor or between two walls
- EN 1253 certified
- ETAG - 022 certified
- Height adjustable trap body
- Multi TAF- height adjustable tile frame ( 7 - 18 mm)
- High drainage capacity ( 54 l/min)

The Multi TAF / Multi TAF Wall are supplied with the reversible grate (tile or brushed stainless steel). The complete package consists of a drain incl. grate, siphon (30, 35, 50 mm water seal), height adjustable feet, trap body, grounding and sealing membrane.

Easy Drain<sup>®</sup> Shower Boards &  
Sealing Solutions<sup>®</sup>

TILE THICKNESS 7 - 18 MM

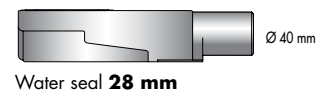

## Shower Board S-line "Design in a Shower Board"

Easy Drain Shower Board is perfectly applicable for any construction situation (new installation and renovation). The Shower Board can be shortened at each side up to a maximum length of 85 cm. All sides of the Shower Board are coated with a special plastic mortar mix, which can be tiled immediately and ensures a 100% watertight installation. Easy Drain Shower Board is a complete set including: S-line shower drain, trap body, sloped board and sealing set inclusive with corner pieces.

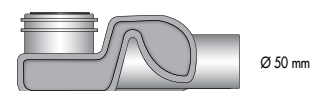

### Some unique advantages:

- Slope created without mortar or cement
- Complete sealing of the shower area in combination with our SAM system
- Low installation depth
- Top of the shower panel coated with WPS fleece
- Complete installation by the installer
- The Shower Board can be shortened at each side up to a maximum length of 85 cm
- Simple installation and sealing of the EasyDrain® S-line
- EN 1253 Certified
- Incl. Secondary water drainage
- TAF- height adjustable frame (7 - 18 mm)
- Wheelchair accessible

## Shower Board Aqua Brilliant "One system, its that simple....."

**COMPLETE SET**  
INCL. GRATE 

The Shower Board can be cut at each side up to a maximum length of 75 cm and is therefore suitable for almost all installation situations (new construction or renovation). All sides of the Shower Board are coated with a special plastic mortar mix, which can be tiled immediately and ensures a 100% watertight installation. The Shower Board is always a complete unit consisting of: shower drain, siphon 50 mm (certified EN 1253) with horizontal or vertical outlet, slope board and sealing set.

### Some unique advantages:

- Slope preparation without mortar or screed
- Complete sealing of the shower area in combination with our SAM system
- Low installation depth
- Shortened at each side up to a maximum length of 75 cm
- Suitable for wheelchairs
- Variable connection, for vertical or horizontal application
- High drainage capacity: 39 l/min
- EN 1253 certified
- Height adjustable and rotatable grate

# Sealing Solutions® SAM

(Self-adhesive sealing membrane)

Sealing Solutions is a self-adhesive sealing system which offers a secure sealing in combination with Easy Drain Shower Boards. With this sealing kit, we guarantee 10 year on water tightness for the entire bathroom area. All standard packages a sealing certificate is included. Sealing Solutions is certified according to:

ETAG - 022

ab(P)

ANSI 18110

Sealing Solutions **SAM** is a revolutionary sealing system based on elastic foam technology. The self-adhesive sealing membrane can be glued directly to wall and floor surfaces without using additional liquid sealing material. The top side is fleece-coated with an anti-bacterially film and offers an ideal base surface for every type of tile glue. Most moisture related damages result from an improper installation of liquid sealed sealing membranes, wall-to-floor transfers, and drainage systems. The patented Sealing Solutions **SAM** sealing system avoids moisture damage by using fleece free impact bonding. The non-woven zones interrupt the capillary movement of moisture and ensure a 100% watertightness.

The following primed base surfaces can be sealed with Sealing Solutions **SAM**:

- Concrete
- Cement screeds
- Dry screed
- Existing ceramics (tiles)
- Plasterboard
- Wood

#### Unique advantages:

- Time saving installation (ca. 2 hours drying time)
- Surface immediately tileable
- Suitable for all types of building chemicals
- No more liquid sealing necessary!
- Dustfree assembly
- Fast, direct processing
- 100% watertight warranty
- Complete sets including all accessories
- Antibacterial fleece coating to prevent mold formation!
- High material elasticity prevents cracking
- Acoustic decoupling between finished surface and building construction
- Instantly high adhesive force (20 ton / m<sup>2</sup>)

## A jewel in your bathroom

ESS equipped their famous shower drain with the innovative TAF-system. The height adjustable grates adapt perfectly to the bathroom floor. Aqua Jewels shower drains are ideal for renovation as well as new construction due to the low installation depth. Decide for yourself what type of grate finish suits your bathroom floor best; brushed stainless steel, glass or your own bathroom tile. Aqua Jewels are delivered as one set and are in 3 versions available: Quattro, Delta and Linea XS.

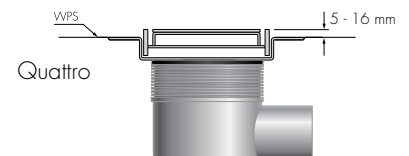

### Product benefits:

- Easy to clean siphon
- Pre-assembled sealing membrane - **WPS Technology**
- EN 1253 certified
- ETAG - 022 certified
- Height adjustable siphon
- Pivoted and adjustable drainage siphon

Easy Drain®

Aqua Brilliant

## Variable connection ( horizontal and vertical )

Horizontal connection

Vertical connection

## Cutting edge technology

Vertical and horizontal connectivity combined in a single shower drain. Easy to apply due to its unique form and flexible flange. Very low installation depth with a 50 mm water seal, according to DIN EN 1253, Aqua Brilliant is ideal for renovations thanks to patented technology.

### Features:

- Suitable for every installation depth: trap body and grate are height adjustable.
- Extremely low installation depth
- High drainage capacity: 39 l/m
- Glueable ABS trap body, according to DIN-EN-ISO 2580-1:2002
- Easy to clean siphon
- WPS technology – 10 years warranty
- Patented flexible flange technology: WPS ensures 100% watertight, perfect adhesion and no pressure load on the edge in comparison to a fixed flange.
- Soundproofing mat is included in the packing
- Variable connection, for vertical or horizontal application
- Self-explanatory shower drain for professionals (smooth transition from installation to tiling)
- ETAG - 022 certified
- EN 1253 certified

Aqua shower drains are supplied as a complete set including build-in set, grate, trap body, water seal, cement cap and WPS system. Using the cement cap makes sure that the build-in set and trap body are protected during the installation process.

### Design:

The Aqua Brilliant shower drain is equipped with a solid grate and refined build-in set with stainless steel color.

Aqua shower drain series are equipped with our Multi siphon technology; providing a solution to every shower drainage question.

#### Features:

- Suitable for every installation depth: trap body and grate are height adjustable.
- 15x15 cm models are horizontally adjustable for a perfect tile/shower drain installation.
- Variable and height adjustable water seal from 50 to 25 mm
- Extremely low installation depth
- High drainage capacity.
- Glue able ABS trap body, according to DIN-EN-ISO 2580-1:2002
- Easy to clean siphon.
- Patented flexible flange technology: WPS ensures 100% watertightness, perfect adhesion and no pressure load on the edge in comparison to a fixed flanged drain.
- ETAG - 022 certified
- EN 1253 certified

Aqua shower drains are supplied as a complete set including build-in set, grate, trap body, water seal, cement cap and WPS system. Using the cement cap ensures the build-in set and trap body are protected during installation.

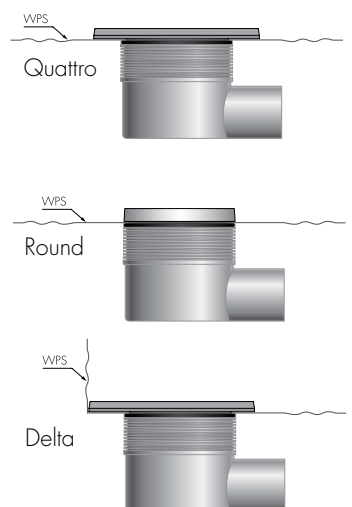

#### Design:

Aqua shower drains are equipped with a solid grate and refined build-in set with stainless steel finish.

Easy2Seal **2K RAPID**

Article code	Article description
E2S-2K-K	Set consisting of: 1,5 kg for approx. 1 m <sup>2</sup>
E2S-2K-G	Set consisting of: 4,0 kg for approx. 3 m <sup>2</sup>

Easy2Seal **2K** is a 2-component, highly flexible and reactively fast-setting sealing system for reliable sealing of surfaces.

- two components, fast-setting even at low temperatures
- dries with almost no shrinking
- weather-independent drying thanks to reactive setting
- can be applied by brush, roller, sprayer, or towel
- processing time approx. 45 minutes
- can be surface ready after approx. 90 min - perfect for renovation
- sets in the absence of air - important when sealing tapes overlap
- can be applied directly wet-on-wet
- saves time thanks to rapid work sequence
- for indoor and outdoor use

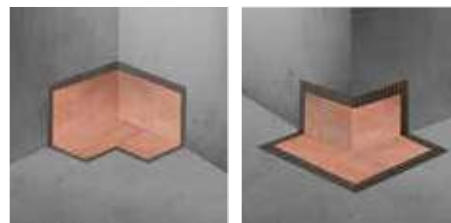

**Consumption:**

## Wet area - Sealing system

With the new wet area sealing offers a guaranteed safe watertight system solution, that should be applied in combination with the Easy Drain drainage system. This way, leaking as a result of faulty installation due to unfavorable conditions is eliminated. This sealing system from Easy Drain offers both speed and quality in watertight installations with significant time savings.

**10 years limited warranty** when using sealing sets with any Easy Drain!

For a complete sealing, we offer 2 options:

Sealing set for wet area until 5 m<sup>2</sup> wide

Sealing set for wet area until 10 m<sup>2</sup> wide

Sealing set for wet area until 5 m<sup>2</sup>

## Fire protection set "R90"

## Fire protection set

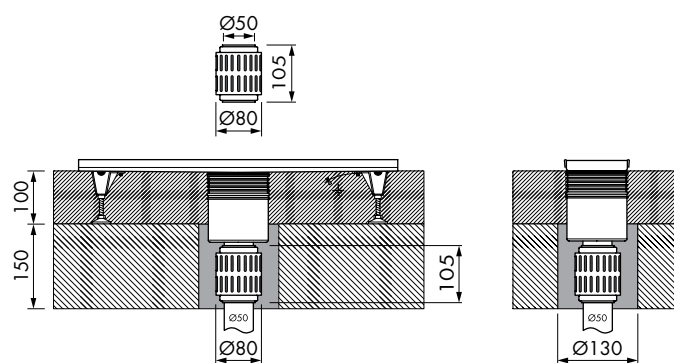

This fire protection system has been developed specifically for our shower drain series.

Its capacity has been successfully proven by fire tests, it turned out that the fire protection set has a resistance up to 90 minutes.

Article code

ED-BRAND

## Characteristics:

- Direct mounting under the drain through a plug connection
- High fire proof foreclosure DN 50
- Fire protection set consisting of: fire protection collar, PP-HT socket DN 50 and a identification plate
- The scope of application with massiv covers is 150 until 325 mm cover thickness
- Compatible with all marketable drainage connections made of authorized plastics.

Fire and smoke resistant, fire-resistance class rating "R90" according to DIN 4102-11. Suitable for Easy Drain shower drains and shower drains with a Ø50 mm vertical outlet.

# Easy Drain®

## Assembly Accessories

### EasyCompound

Easy Compound is a two-part sealing set for the guaranteed sealing of the seams between tile and Easy Drain. Easy Compound is suitable for all tile sorts.

Advantages:

- 3-year watertightness guarantee
- No mould formation
- Can be used after two hours
- Can be applied with a simple sealant gun

Easy Compound consists of: 1 Easy Compound funnel, 2 mixing nozzles, 1 pot of cleaner 22 (degreaser), 1 brush and 2 trouwels.

Article code

ED2C

**3**  
YEAR  
WARRANTY

### EasySilicon

Stainless steel color

EasySilicon is a longlasting elastic, sealant that is easy to apply. The stainless steel color perfectly matches between Easy Drain and tile.

Advantages:

- High quality
- Unique stainless steel colour
- Easy to apply

EasySilicon set consists of: 1 EasySilicon funnel, 1 nozzle, 1 pot of easy cleaner 22 (degreaser), 1 brush and 2 spatulas.

Article code

EDSIL 1

### Easy Clean set

Easy Clean set is specially developed for the care and cleaning of your Easy Drain. The Easy Clean set removes trapped filth and other stains that are hard to remove and gives the drain its shine back.

Easy Clean set consists of: 300 ml Easy cleaner, 300 ml Easy remover, sponge and microfiber cloth.

Article code

ED-SC

### Soundproofing mat

Dimensions: 1250x300x5 mm

In accordance with P-BA 74/2011 approval, suitable for entire Easy Drain series. The soundproofing mat complies with the enhanced soundproofing requirements according to DIN 4109.

# Easy Drain® Easy Turn®

## Shower profiles

### Barrier profile:

- No sharp transitions and edges
- Watertight solution
- No need for height difference between tiles
- Simple processing
- Maximum tile thickness: 13,5 mm
- Perfect for glass wall panels and barrier-free showers
- Sealing membrane included. The supplied sealing membrane is ultra-thin, tear-resistant, elastic, vapour diffusion-open sealing membrane for waterproof sealing of flat building parts. This membrane meets the ZDB (Central German Building and Construction Trade Association) requirements for alternative sealants. The membrane allows, after 7 days, no moisture penetration under a constant pressure of 1.5 bar.

## Collection

ESS presents a new range of container accessories and brings with this product line an array of attractive and practical products on the market suitable for bathroom and toilet. This new productline includes a concealed toilet paper storage / holder and a built-in wall niche made of high quality stainless steel in various sizes. You can conveniently stow all your toilet paper, shampoos and shower gel's. The perfect and sleek design of Container products will look harmonious in every bathroom.

All our products are distinctive by:

- Superior quality
- Space saving, stylish and functional design
- Easy installation, simple and uncomplicated sealing and tiling

Needless to say is that all products of this serie meet the high quality standard set by ESS.

Slim Serie®

# Slim serie

## Practical innovation

Another practical and thoughtful innovation to solve installation problems. Since the beginning, it has been our goal to offer with our Slim Serie, a solution to the ever problematic installation of water capacity.

- Flattest washbasin siphon available.
- Ultra thin and therefore easy to install behind furniture.
- New chances and all freedom when installing the patented Slim Tube system.
- Fits all standard drain pipes DN 50/DN 40.
- No more need to adopt the furniture to the siphon.
- Compatible for washbasins with push-open valve.

## Slim Siphon XF with Slim Waste

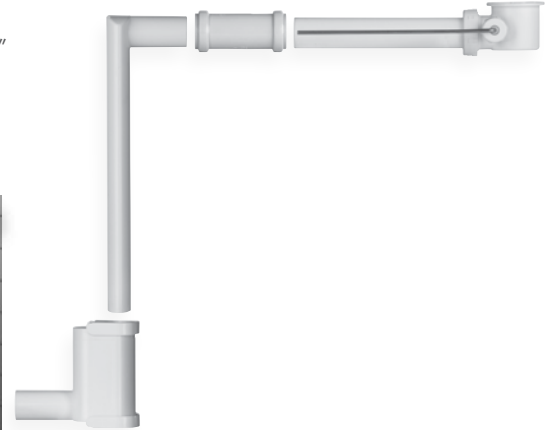

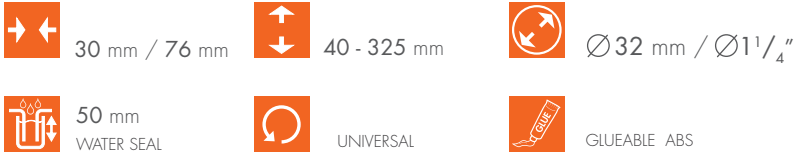

This siphon is the ultimate space-saver. With only 55 mm is this siphon the flattest washbasin siphon available. Our patented Slim Waste in combination with the XF Siphon, offers manufacturers the possibility to design bathroom furniture without siphon recess. In practice, this results in more storage space in bathroom furniture. Furthermore, the XF Slim Waste can be combined with all major drain valves which have a "Push Open" function.

SW · SET

### Slim Siphon with Slim Waste

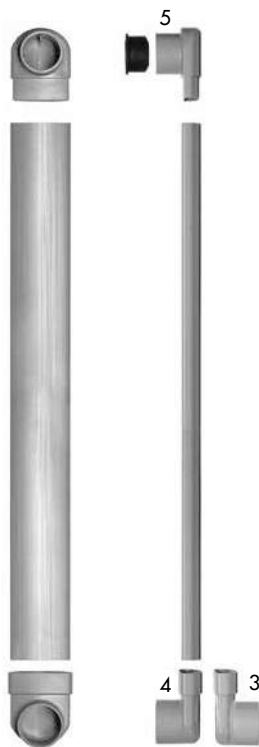

Slim Siphon and Slim Waste offers numerous application options and can be applied in almost any wall-drain connection. It can be installed up to 72 mm bottom basin. Furthermore, the Slim Waste can be combined with all major drain valves which have a "Push Open" function.

### Installation options:

# Slim Serie®

## The ingenious drainage tube

With an installation depth of only 2 cm, the Slim Tube offers an optimal solution for this problem. Due to the elongated flat ellipse shape, the Slim Tube has a comparable cross-cut like a drainage pipe of approximately 50mm Ø. This exceeds the minimum requirements with regard to the flow of a drainage pipe of 40mm Ø. Because of the low installation depth of 2 cm, every wall construction stays unchanged. Adjoined wall damages are a part of the past. The drain can also be brought in front of a wall and leveled with a 2 cm thick ceramic plate (construction plate/gypsum cardboard plate), rough plaster and so on. Because the installation depth is minimal, the sound transmission in other rooms is low as well.

Slim Tube is suitable for many applications. As drain pipe, Slim Tube can be connected to sinks, fountains, bidets, washing machines and so on. Soon, it will also be possible to, for example, connect horizontally the outlets of two sinks in the middle by means of a T-piece coupler.

Given that the Slim Tube is also available in longer lengths, it is well suitable for continuous aeration and ventilation in the bathrooms. Last mentioned is one of the most common problems of drainage technology.

Slim Tube consists of bondable parts and it is very easy to shorten. From that, the product can be brought to the desired length without much effort. Slim Tube is an evolved outlet. With its low installation depth, multifunctional usability and its flexibility can be considered as a revolutionary and practical invention.

Slim Tube is a worldwide patented invention of ESS.

- Flat oval shaped PVC -pipe L = 750 mm
- Curve 90° inlet 40 mm inside (siphon connection)
- Curve 90° outlet 50 mm outside (drain connection)
- Protection cover
- Transition rubber 40/32

**Slim Tube®**  
made by ess

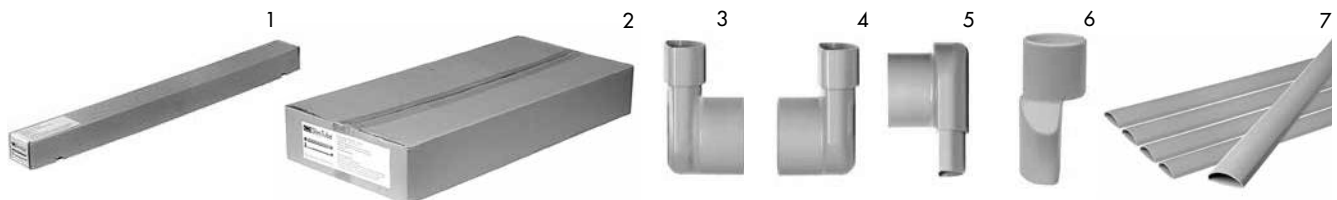

THE INGENIOUS DRAIN TUBE

Slim Series is the ultimate space-saver and enables manufacturers to design bathroom furniture without siphon recess.

It is our goal to offer a solution with Slim Tube for the again and again problematic installation of drainage pipes. Frequently, it happens with renovation as well as with new building that 7cm thick partition walls are utilized, which are affected in their stability when a common drainage pipe is laid in (which has to be at least a 4 to 5 cm deep slit that must be milled in the wall). how badly the wall is affected in its stability depends on the state of the wall. With renovations, the deep slit could cause damaging of the wall of the neighbouring room.

Processing

- Cut the flat oval PVC -pipe exactly to the required length
- Deburr the ends of the pipe and fitting, shear cut, sand and clean carefully
- Smear the pipe and curves evenly with PVC -glue/adhesive and merge immediately
- Remove immediately redundant adhesive, don't strain the connection point during the drying
- For more information with regard to gluing, see technical data sheet of the adhesive supplier

ADJUSTABLE GRATE 	THREE-FOLD INSTALLATION 
SOUND-PROOF 	FREE IN THE FLOOR 
TAF MODEL 	HEIGHT ADJUSTABLE DRAINAGE SIPHON 
WATER PROTECTION SYSTEM 	CERTIFIED* 
WATER CAPACITY 	

\* with water seal 50 mm

While taking a shower, a large amount of warm water is lost directly through the shower drain. The Easy Drain® WTW-system ensures that the heat energy of the dissipated shower water is transferred to the cold tap water via a double-walled spiral, which is then heated by 10 °C. The pre-heated water is directed to the water heater or (thermostatic) mixer tap of the shower. The Easy Drain® WTW-system does not only lower the heating costs, but also improves the energy efficiency of the house and thus contributes to a sustainable future.

Easy Drain® WTW is easy to install and maintain. Thanks to the Easy Drain® Multi technology, the WTW system can be simply coupled to the Easy Drain® WTW-Multi-shower drains and most of the Easy Drain® shower drains from the Aqua series. All shower drains with Multi-technology are rotatable and height-adjustable, thus offering a high degree of installation flexibility.

- Suitable for all Easy Drain® Multi shower drains and Aqua, Aqua Plus & Aqua Jewels drains, which are equipped with Multi-technology.
- Double-walled spiral according to NEN-EN 1717
- Efficiency up to 31 %
- Saving an average of 35m<sup>3</sup> of gas per person per year.
- Very easy installation and maintenance.
- Standard connections for water and for the sewage.
- Lower EPC (energy-efficiency) of the building.
- Estimated EPC reduction by 0.02 - 0.05\* (KIWA-Gastech) according to the NEN-5128 calculation method.

Article code	Article description
ED-WTW	WTW Heat recovery system

WTW Energy saving

**System A (recommended)**

Water supply (cold)	Tap water
Outlet (warm)	Water heater

Low efficiency relative to the efficiency of the heating boiler.

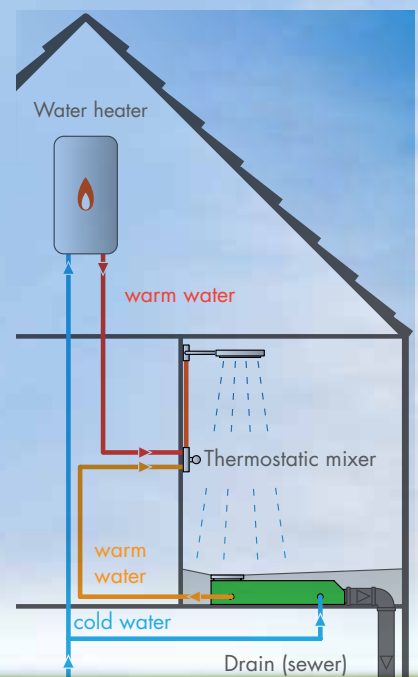

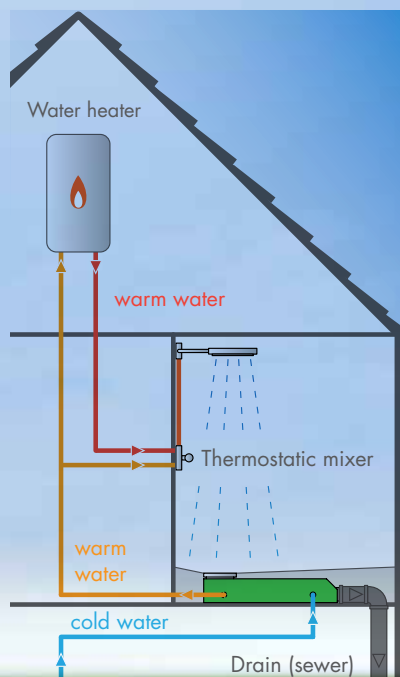

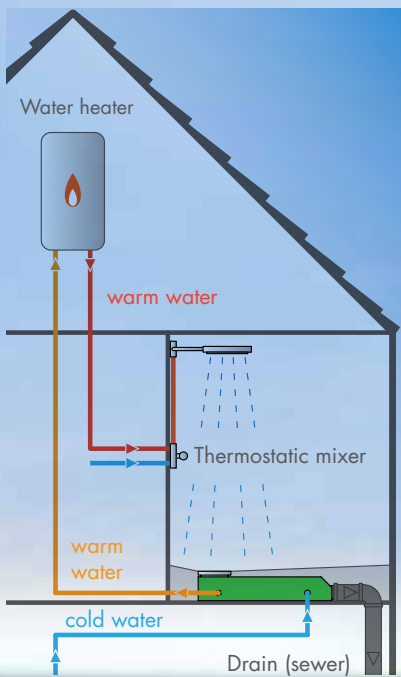

**System B**

Water supply (cold)	Tap water
Outlet (warm)	Water heater & mixer tap

**System C**

Water supply (cold)	Tap water
Outlet (warm)	Mixer tap

Low efficiency

WTW

**Aqua series**

... in combination with **Easy Drain® Aqua series** shower drain

100x100 mm, 150x150 mm, 200x200 mm, Ø100 mm, Ø146 mm, Delta

**Multi series**

... in combination with **Easy Drain® Multi series** shower drain

500 to 2000 mm long

Easy Drain®

## Technical specifications

Properties	Unit of measurement	Specifications
Temperature range	°C	0 - 60
Maximum pressure (drinking water)	Bar	6.0
Maximum performance (drainage)	l/min	30.0
Pressure reduction (drinking water)	Inch	0.00 - 0.40
Material spiral	-	Copper
Material body	-	ABS resin
Connections (Water supply and outlet)	Inch	1/2" Outer diameter (not solderable)

Test results<sup>[1]</sup> and performances**kiwa**TESTED

Properties	Unit	Test 1		Test 2		Test 3	
		1.1	1.2	2.1	2.2	3.1	3.2

Energy saving <sup>[4]</sup>	kWh/year	791	536	1141	784	1446	1031

Estimated EPC-reduction 0,02 - 0,05\* (KIWA-Gastech) according to the NEN-5128-calculation method.

[1] EIDT, S.A. - 2013

[2]  $(\text{Flow rate}/60) \times 4,2 \times (\text{Temperature shower} - \text{temperature cold water [in]})$

[3]  $(\text{Flow rate}/60) \times 4,2 \times (\text{Temperature water [out]} - \text{temperature water [in]})$

[4] Saving on heating regarding the warm water producer/-boiler:  
 $(\text{Energy [recovered]} / \text{efficiency heater}) \times \text{yearly consumption} \times \text{shower time} \times \text{number of users}/60$

\*The exact value of the EPC-Differenz ( $\Delta\text{EPC}$ ) differ from the expected value due to various environment variables. Therefore, always perform an EPC - calculation by a reputed company.

## Technical specifications

#	Part	Material
1	Easy Drain Multi connection	Rubber gasket
2	Easy Drain heat exchanger with spiral	ABS resin & copper
3	Height adjustable feet (4 pieces)	Steel / plastic
4	Connection (1/2" outside diameter): Outlet (pre-heated water)	Brass
5	Connection (1/2" outside diameter): Supply (cold water)	Brass
6	Connection (Ø40 mm): Drain water into sewer (Extension to Ø50 mm)	PVC

## Easy Drain®

### Installation & connection

The Easy Drain® WTW Heat recovery system is height-adjustable by means of positioning feet on the underside of the housing. After installing the WTW-system, the system can easily be coupled to an Easy Drain® Multi-shower drain or a shower drain from the Aqua series. Thanks to the applied Multi-technique, the system can be sealed with a sealing rubber and optionally with a WPS sealing

cloth. The shower drain is still rotatable and adjustable in height after the installation.

The WTW-system has two copper connections: one for cold tap water and one for warm water. The third connection, a round PVC pipe, must be connected to the sewer via a drain pipe.

### Maintenance

The Easy Drain® WTW-system, combined with the Multi-technology, can easily be cleaned by means of the removable grate and siphon. After removal of the siphon, your drain pipe cleaning shaft is accessible.

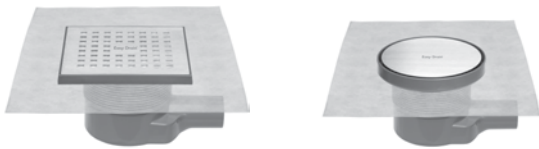

In order to obtain the heat transfer in the heat exchanger, the Easy-Drain-WTW-system has to be cleaned 1 to 2 times a year.

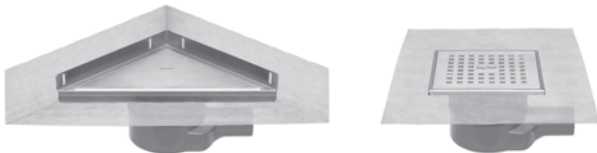

# Easy Drain® WTW in combination with:

## Easy Drain® Aqua

ABS upper part with stainless steel grate

## Aqua Plus

Stainless steel upper part with stainless steel grate

Aqua Jewels  
Luxury series shower drains

## Easy Drain® Multi

Multi build-in set/ Wall

Multi long lengths/Fliese  
Length 500 to 2000 mm

Multi TAF/ TAF Wall

WPS technology -  
pre-assembled sealing membrane  
**10 years warranty**
